Education

Kalinga Institute of Industrial Technology, Bhubaneswar, Odisha Sept 2022 – May 2026

- Bachelor of Technology in Computer Science Engineering - **CGPA: 8.56** ([Link](#))
- **Coursework:** Data Structures & Algorithms (DSA), Database Management System (DBMS), Operating Systems (OS), Object Oriented Programming (OOP), Machine Learning (ML), Software Engineering (SE).

Internship

ACCENTURE, Associate Software Engineer Intern – Gurugram, Haryana, IND May 2025 – July 2025

- Built a **GenAI-powered asset manager** **1,200+ utility assets** using **React, Flask, and Neon PostgreSQL**, integrating SQL-fetched SCADA, maintenance, and inspection data with a Python rule engine to assess risk and generate insights via a **GenAI natural language chatbot** using **Gemini LLM** and **prompt engineering**.
- Developed **RAG** and **Agentic AI** workflows using **FAISS** and **LangChain** to classify queries, fetch data, and provide diagnostics and recommendations, reducing **resolution time** from **5+ hours** to **under 5 min**.
- Validated **Flask** API endpoints using **Postman**, ensuring reliability and 99.9% uptime.
- Completed **90+ hours** of industry-grade training covering **GenAI (Prompt Engineering, RAG, LLMs, Transformers)**, **Java**, **RPA & Automation (Blue Prism)**, **Cybersecurity**.

Projects

ATS Scorer & Analyzer: React, n8n, Node.js, PostgreSQL, spaCy, JWT, Vercel Jan 2025 - Present

- Developed an **AI-powered NLP model** to detect job-resume alignment gaps, implementing a smart scoring system that improved ATS match rates by 40% in benchmark tests.
- Delivered personalized feedback based on 6+ factors and real-time updates via a React based interface.

Inventory Management Dashboard: AWS, Next.js, Node.js, Prisma, TypeScript June 2025 - Present

- **Automated inventory tracking** with analytics, audit logs, and role-based controls, reducing manual tracking effort by 80%.
- Deployed full AWS stack (**RDS, EC2, S3, Amplify**), simulating enterprise-grade hosting and cost-efficient scaling.

Genify: React Native, GenAI APIs, Neon PostgreSQL, Google Auth Oct 2024 - Dec 2024

- Published a GenAI app enabling **prompt-based image generation**, enhancement, and sharing platform.
- Integrated Google login and payment gateway to support community features and enable future monetization.

Leadership & Achievements

Deloitte Hackathon'25 – Top 100 Nationally Feb 2025

Smart India Hackathon 2024 – Regional Finalist Aug 2024

Open Source Contributor – Social Winter of Code 2024 Jan 2024

Web Development Lead – Coding Ninjas: KIIT Chapter December 2023 - Current

- Led a 10+ member team to develop and deploy a Next.js website with an admin panel using RESTful APIs.

Instructor – E-Labs (Peer-to-Peer Learning Society) December 2023 - Current

- Taught 100+ underclassmen core DSA concepts like Stacks and Queues via structured academic workshops.
